

4. BELTS

Articulated Belt

POWERTWIST WITH REMOVABLE LINKS

Link belts:

These trapezoidal belts are made of removable superior POLYURETHANE links. They are easy to assemble on transmissions with fixed distance of centres.

Tension and wearing are avoided by simply eliminating one or more links.

Tension can adjusted of 4% for the 10, 13 and 17 mm lengths and of 5% for 22 mm.

The original packaging is 10 m but it can also be sent with other length.

| Ref. | Ø _{belt} | Group | PRICE / M |
|-------|--|-------|-----------|
| 01731 | 10 | Z | 49.50 |
| 01732 | 13 | A | 52.00 |
| 01733 | 17 | B | 57.00 |
| 01734 | 22 | C | 78.00 |
| 01754 | Ø 8mm For Machine T4 T4 M4 Replaces black veelos 00 : 8 m | | 48.00 |

Measuring method:

Install the belt on the pulleys and control the length by stacking the two tongues on the two holes.

Cut the number of links and take off one every 24 for the sections O/3L, A/4L and B/5L or one every 20 for the sections C and D.

Note: Every 10th link is indicated with an arrow. For the drives with multiple belts, the belts must have the same link number.

Uninstalling:

Installing:

Conditions of sale: Discount : 5 % from 40 m of identical item.
10 % from 60 m of identical item.
15 % from 80 m of identical item.
20 % from 100 m of identical item.

For the assembling, the Plier DIXLINK (Ref. 01735, Fr. 17.00) are advised. The tension can be adjusted how it follows:

- The belt is put together on the drive and is then dismantled.
- Its length is reduced of 8% (1 link every 12) for the widths from 10 to 17 mm and of 5% for the widths from 22 mm.
- The shortened belt is then reassembled in order to obtain the optimal tension.

The original packaging is 20 m but it can also be sent with other length.

| Ref. | Width | Group | PRICE / M |
|-------|-------|-------|-----------|
| 01744 | 15 | --- | 43.00 |
| 01746 | 22 | C | 75.70 |

The combination of high strength and low elongation under load simply cannot be beaten. Because they're made of a custom-designed, high-tech polyurethane/polyester composite, PowerTwist Plus V-belts won't fail you when others may. The result? Less downtime. Higher productivity. Reduced maintenance costs.

PowerTwist Plus V-Belts have the same cross section dimensions as conventional endless V-belts and can be installed on existing pulleys with no changes in set-up.

Single or matched V-belt sets can be made with a flick of the wrist! PowerTwist Plus V-Belts can be made up to required length by hand in seconds and rolled onto the drive just like a bicycle chain. Their custom multi-ply composite construction prevents roll-on damage. If conventional rubber V-belts are installed this way, almost certainly some of the load-bearing tension cords will be broken, leading to significantly reduced belt life.

If your V-belt drives are operating in hostile, nasty environments, you've got to take advantage of the high performance properties of polyurethanes. That's why we use a high performance polyurethane elastomer reinforced with multiple plies of polyester fabric for PowerTwist Plus. This custom material provides PowerTwist Plus with significantly superior resistance to oils, grease, water, most common industrial/agricultural chemicals and solvents. Plus an operating temperature range, with no loss of performance, of -40° F to +240° F.

Conventional SBR/chloroprene brand V-belts simply can't compete. Reduce transmitted vibration.

Trapezoidal articulated Belt

VEELOS SUPER POLYESTER

The VEELOS Super Polyester trapezoidal articulated belt, long-lasting and robust, for the driving force transmission under extreme solicitation conditions. It is made up of a cloth soaked in neoprene, having the resistance to flexion and traction needed for an excellent output in service. This belt has an exceptional solidity to every trial and it transmits up to 50% more force with a lengthening up to 30 % inferior to the ordinary articulated trapezoidal belts.

It is manufactured with an exclusive rotary polymerization process that thoroughly soaks the polyester cloth. Its entirely synthetic construction permits to the VEELOS Super Polyester belt resisting to the attack of many different industrial oils, greases and lubricants. Its resistance to ozone and oxygen is excellent. Even after a long exposition to high humidity or an immersion into water, the polyester cloth does not deteriorate or go mouldy and its resistance to traction remains very high.

Like all the VEELOS trapezoidal articulated belts, the super polyester model is made of even links that do not generate nor transmit any vibration.

| Ref. | Width | Length | Group | PRICE / M |
|-------|-------|--------|-------|-----------|
| 01756 | 10 | 10 m | 0 | 62.00 |
| 01757 | 13 | | A | 63.00 |

Conditions of sale: Discount : 5 % from 40 m of identical item.
10 % from 60 m of identical item.
15 % from 80 m of identical item.
20 % from 100 m of identical item.

Trapezoidal articulated Belt

V-LINK MAXI RED

Articulated belt NU-T-Link / Super-t-Link

NuTlink (V section) belts and SuperTLink (SP section) belts offer the V or SP performance with a longer life-lasting. These trapezoidal belts with removable links made of polyester/polyuretane, are up to 20 times more resistant, even in the more demanding conditions.

- Excellent high resistance to high temperatures (-40 to 100°C)
- Excellent high resistance to abrasive substances.
- High resistance to water, steam, oil, and to most of the industrial chemicals.

The removable elements conception makes the installation easier and more rapid, even on the less easily accessible mechanisms. The belts can be installed by simply assembling the links without the dismantling of the mechanism.

The removable links system permits the reduction of stocks, as the belts can be adjusted in situ to the desired length, by adding or removing links.

The servicing is unnecessary because the initially adjusted tension does not change.

The links belt conception permits the reduction of 50% of the vibrations and the functioning noise.

The original packaging is 20 m but it can also be sent with other length.

Nu-T-Link belt is available in every standard section of the sector:

- Z/10, A/13, B/17, C/22, S/25, D/32, E/40, F/50

Super-T-Link belt is available in the following sections:

- SPZ, SPA, SPB, SPC

SUPER-T-LINK

| Ref. | Ø _{belt} | Group | PRICE |
|-------|-------------------|-------|--------|
| 02190 | 10 | SP Z | 153.00 |
| 02191 | 13 | SPA | 153.00 |

Tension is adjusted how it follows with the included tool:

- The belt is put together on the carrying and then dismantled.
- Its length is reduced of 9% (1 link every 11) for the lengths from 10 to 17 mm and of 5% for the lengths from 22 mm.
- The shortened belt is then reassembled in order to obtain an optimal tension.

Prices are meant for a length of 20 m.

- 20 % from 100 m of identical item.

Round Belt

QUICK-GO POLYURETANE

QUICK-GO belts differ from usual round belts by the patented system that permits to produce endless belt by means of a metallic joint that can be placed in a few seconds and that does not need any special device. The use of the cutting Plier QUICK-GO is recommended for the assembling (Ref. 01770, Fr. 24.00).

The original packaging is 30 m but it can also be sent with other length.

Rigid round endless string Belt

ASCO-STAR

yellow

Use examples:

Textile machines, tool-machines Schaublin 102, Ewag, Posalux, Technica, etc. These belts are very resistant to use and are specially recommended on the high-speed machines.

Must be indicated: the string length equivalent to the working tightened length.

Round Belt

POLYCORD

POLYURETHANE, GREEN

Thanks to a high flexibility, these round Polycord belts allow unlimited direction changes. Thanks to their high elasticity, the round Polycord belts operate as security elements by reducing the backlash and the overloads and by increasing their lasting.

Expensive intermediary elements can be then suppressed. Physical and chemical characteristics are exceptional in many fields: resistance to hydrolysis, for example, is slightly higher than in most of the known elastomers-polyurethanes. Moreover, the non antistatic round Polycord belts are water-, oil-, grease-, and benzene-proof. Round Polycord belts assure, thanks to their tight tolerance of diameters, many regular turns.

The original packaging is 30 m but it can also be sent with other length.

Use:

Mechanical construction of machines and devices, precision mechanics and horology, reaming machines, oil pumps, pantographs, accessories for automatic lathes, textile industry, etc.

Hooking spray

BARDAHL

WEICON Transmission Belt Spray is a transparent coating based on synthetic elastomers for highly stressed transmission belts of all kinds.

It increases the life of belts, prolongs the life of machines and installations, prevents belt slippage, transmits full drive power, eliminates and prevents squeaking, etc.

WEICON Transmission Belt Spray is suitable for all types of belts and tapes in common materials, eg. ex. in fabric, leather, rubber or PVC.

Flat endless Belt

High capacity, synthetic

Made in cloth, endless, the HEVALOID belts, made of synthetic thread in different thickness, are soaked in synthetic rubber and then vulcanized. The result is a silent belt that has a great flexibility and a high friction coefficient. Its 90% output, with a high deflexion frequency, allows power economy, consideration of the bearings and an exceptional use lasting. These transfer belts are resistant to oil, acids and lye. They endure permanent temperatures of 100°C. In order to get good results, the pulleys should not have rims. A uniform surface, well worked, assures the best transit of the belt. In all transmission with flat belts, at least one of the pulleys must be bulging in order to assure an efficient guidance.

HEVALOID

Conditions of sale: Net prices

Correct shape that assures an efficient guidance and a long time of use.

Acceptable for a width inferior to 20 mm.

Bad shape, to be absolutely avoided.

The belt thickness, the price of which is indicated in red (525), is 1.5 mm and that of the others (535) is 2 mm.
